

## Create a Variety of Assessments Using ExamView

Follow these steps to create assessments using the *Grammar in Context, Seventh Edition* content.

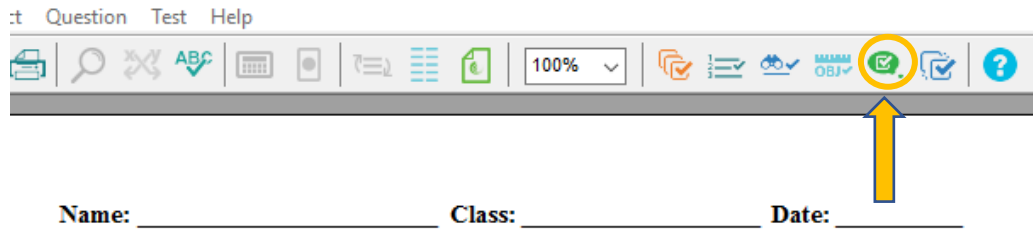

1. After installing the *Grammar in Context, Seventh Edition* ExamView software and content for your level, find the **Test Generator** icon on your desktop. Click the icon and create a free account as instructed. If you have already created an account, click "Sign In."

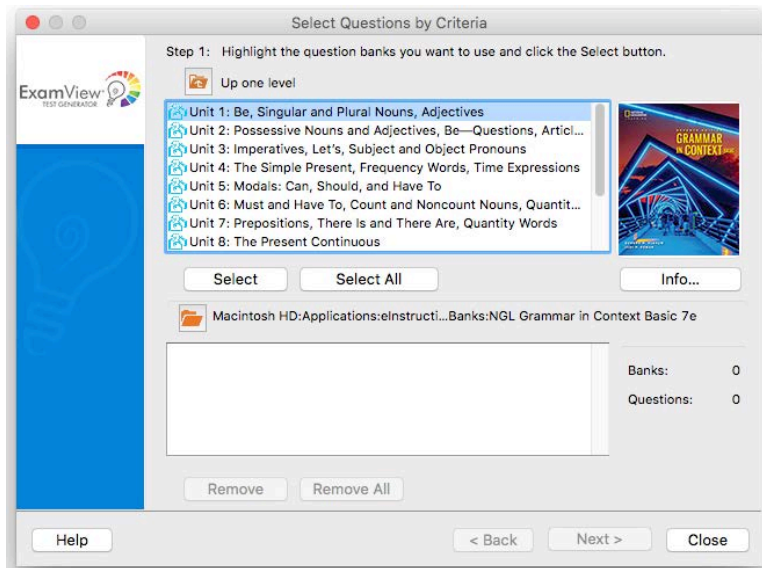

2. Log in. Decide how you want to use the *Grammar in Context* content. You can:
  - "Open an existing question bank" to alter or delete the available questions in a unit and/or add new items that you want available for tests. You can then create a test (.tst file) from this bank.
  - "Create a new test or bank" with your own content. See [here](#) for more information on using ExamView.
  - Use the *Grammar in Context* metadata tags to create a customized test.
3. Select "Create a new test from scratch" to create a unique test with the metadata tags.

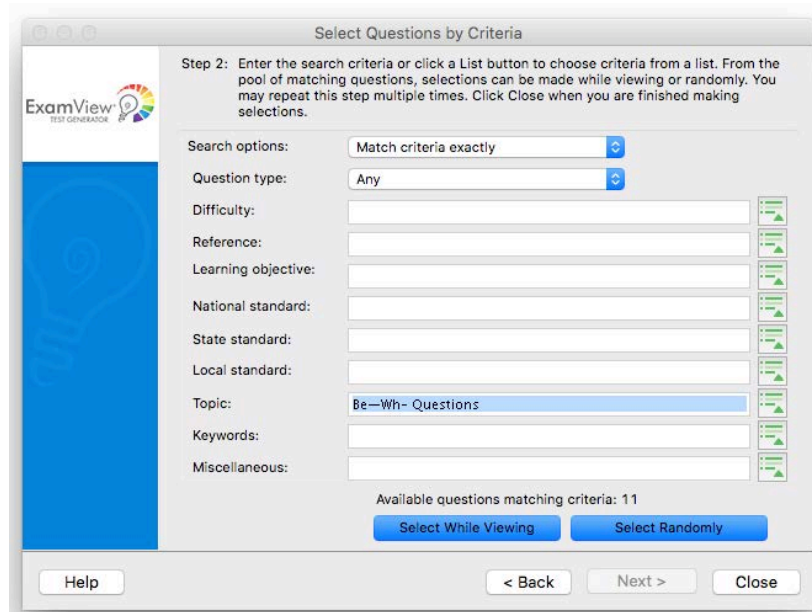

4. Name and save your test. Then to select content for your test, choose the icon at the top that lets you “Select by Criteria.”

5. Choose the units you want to take content from and click “Select.”

6. Click on "Next" and choose the type of test question you want from the "Topics" menu. Choose "Select While Viewing" to choose items you want to keep, or "Select Randomly" to choose some or all items.

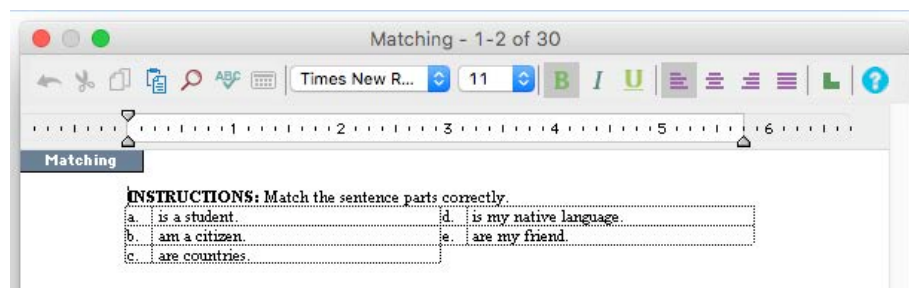

7. When you've added the types of questions you want to your test, click "Close" to see your test. Then edit the test as needed. To edit any test, simply double click on the direction line or question you want to edit and make changes within the pop-up box. Click "Record" to save your changes. To edit the headers or footers, go to the "Test" menu.

**INSTRUCTIONS:** Match the sentence parts correctly.

- |                   |                           |
|-------------------|---------------------------|
| a. is a student.  | d. is my native language. |
| b. am a citizen.  | e. are my friend.         |
| c. are countries. |                           |

\_\_\_\_ 1. It \_\_\_\_

\_\_\_\_ 2. I \_\_\_\_

8. The Answer Section is at the end of every test and provides information about each question, including the answer, the number of points, the unit, the chart number, and the topic (or chart title).

#### Grammar in Context Answer Section

- |                       |                         |                                |  |
|-----------------------|-------------------------|--------------------------------|--|
| 1. ANS: D             | PTS: 1                  | REF: Unit 1   Chart 1.1        |  |
| TOP: Subject Pronouns |                         |                                |  |
| 2. ANS: B             | PTS: 1                  | REF: Unit 1   Chart 1.1        |  |
