Match the word on the left with the dictionary definition on the right. Write the letter on the line.

___ 25. instruct	A. serious and very important
___ 26. equivalent	B. something that you can choose to have or do
___ 27. fundamental	C. equal in value, amount, meaning, or importance
___ 28. contribute	D. to give something, especially money or goods
___ 29. annual	E. to tell somebody to do something
___ 30. option	F. happening or done once every year

Part 2
Listening

Listen to the interview. Circle the best answer to complete each sentence.

31. Dr. Gretchen Sanders is ____ later this week.
A) giving a presentation
B) designing a robot
C) assisting a surgeon
32. A robotics engineer ____.
A) builds automatons that are similar to robots
B) assists surgeons in performing robotic surgery
C) designs robots that do tasks people can't or don't want to do
33. AI stands for ____.
A) artificial invention
B) automatic intelligence
C) artificial intelligence

Listen to the interview again. As you listen, complete the timeline.

400 BCE	Ancient Greek Archytas constructed artificial bird
(34.) _____	Arabic engineer Al-Jazari designed automatons + published a book
15 th C.	Leonardo da Vinci sketched plans for a human-like (35.) _____
(36.) _____	Japanese created automatons – karakuri puppets
18 th C.	Swiss inventor Pierre Jaquet-Droz also made automatons

Circle the best answer to each question.

37. Which words in the sentence signal a definition?
In the 13th century, the Arabic engineer Al-Jazari designed several automatons, which are mechanical devices that can move and perform tasks.
A) which are
B) that can
38. Which words in the sentence signal information?
Right now, there are exciting developments in the medical field—for instance, robotic surgery.
A) there are
B) for instance
39. Which word in the sentence signals a reason or explanation?
There is no particular date that robotic technology started because it evolved over a long period of time.
A) There
B) because
40. Which question asks for an example?
A) Such as?
B) Really?
41. Which sentence gives an example?
A) Shakey was the first intelligent robot that could make its own decisions about how to behave.
B) There are exciting developments in the medical field—for instance, robotic surgery.
42. Which question asks for clarification?
A) Could you explain what a robotics engineer does?
B) When was robotic technology invented?
43. Which sentence uses a sequence word or phrase?
A) There is no particular date that robotic technology started.
B) Then, in the 15th century, Leonardo da Vinci sketched plans for a human-like robot.
44. Which sentence expresses an opinion?
A) That's very impressive.
B) I'm afraid that's all we have time for today.

45. Which sentence paraphrases the following statement?
These robots assist surgeons in performing operations with minimal errors.
- A) These robots help doctors perform surgery with few mistakes.
B) Minimal errors are made by robotic doctors assisting surgery.

Listen to the conversation. Circle the best answer to complete each sentence.

46. The topic of the students' presentation is ____.
- A) electronic devices
B) recycling in Ghana
C) e-waste disposal
47. Electronic devices contain ____ metals that pollute the soil, water, and air.
- A) special
B) toxic
C) illegal
48. People in developing countries break up the e-waste looking for ____.
- A) gold, silver, and copper parts
B) income for their families
C) metals such as lead, cadmium, and mercury

Listen to the conversation again. As you listen, decide whether each statement is a fact or an opinion. Write the letters of the statements under *Fact* or *Opinion* in the T-chart.

- A. A lot of this e-waste goes to Ghana, a country in Africa.
B. Sadly, many young children do this work.
C. People can make money breaking up the devices and selling the parts.

	Fact	Opinion
49.	_____	_____
50.	_____	_____
51.	_____	_____

Circle the best answer to each question.

52. Which word(s) in the sentence signals the name of a person or group?
A group called StEP, which stands for Stop the E-Waste Problem, recommends that the recycling process be changed.
A) called
B) stands for
53. Which word in the sentence signals a place?
A lot of this e-waste goes to Ghana, a country in west Africa.
A) goes
B) in
54. Which word in the sentence signals a reason?
I think we should focus on Ghana because we've only got 15 minutes.
A) because
B) only

Complete the outline of the student's presentation by putting the statements below in the correct order. Write the letter on the line.

1. Main Idea - Overview of (55.) _____
Supporting detail – e-waste = old phones, computers, TVs
Supporting detail – lead, cadmium, mercury = toxic
