Look!

This is black

and this is white.

Black and white make grey!

Look!

This is red

and this is green.

What do green and red make?

Green and red make brown.

Look!

It's Quiz Time!

Yellow and blue make ...

That's right!

Yellow and blue make green!

Blue and red make ...

That's right!

Blue and red make purple!

Red and white make ...

That's right!

Red and white make pink.

Look at all the colours!

What colours can you see?

## Unit 4 Marie's science

### ► Marie's science

Which planets are near Earth?

This is Earth.

This is where we live.

Earth is a planet.

There are eight planets:

Mercury,

Venus,

Earth,

Mars,

Jupiter,

Saturn,

Uranus

and Neptune.

Mercury, Venus and Mars are near Earth.

Jupiter, Saturn, Uranus and Neptune are far away.

The eight planets go round the Sun.

Look!

Some planets have got moons.

Earth has got one moon.

Mars has got two moons.

Saturn has got 82 moons!

It's Quiz Time!

Look at the Moon!

Earth has got one moon

Mars has got ...

That's right!

Mars has got two moons.

Our planet is called ...

That's right!

Our planet is called Earth.

Is Venus near Earth?

Yes, it is!

Well done!

This is Earth.

It is our planet.

Earth is beautiful.

Look!

## Unit 6 Marie's science

### ► Marie's science.

How do we use our senses?

We've got five senses.

We hear.

We see.

We smell.

We touch.

And we taste.

We hear with our ears.

We see with our eyes.

We smell with our nose.

We touch with our hands.

And we taste with our mouth.

Look at the boy!

He hears the music.

Look at the girl!

## CLIL Video Scripts

She sees the fish.  
Look at the girl!  
She smells the fruit.  
Look at the boy!  
He touches the dog.  
Look at the boy!  
He tastes the ice cream.  
Mmmm. Yummy!  
It's Quiz Time!  
We hear with our ...  
That's right!  
We hear with our ears.

It travels in the air.

Look at the hot-air balloon in the air!

This a van.

Vans travel on the road.

Look at the van on the road!

This is a monorail.

Monorails travel on a rail track above the ground.

Look at the monorail on the rail track!

Look at the black scooter.

Look at the old car.

Look at the big lorry!

Cars, scooters and lorries travel on the road.

Look at the small boat!

Boats travel on the water.

## CLIL Video Scripts

Look at the beautiful train!  
Trains travel on rail tracks.  
It's Quiz Time!  
This is a van.  
Vans travel ...  
That's right!  
Vans travel on the road.  
This is a helicopter.  
Helicopters travel ...  
That's right!  
Helicopters travel in the air.  
This is a ship.  
Ships travel ...  
That's right!  
Ships travel on the water.  
There are lots of ways to travel.  
What's your favourite?

### Unit 12 Marie's science

► Marie's science  
How do we grow fruit?  
Fruit grows on plants.  
Trees are plants.  
Some fruit grows on trees.  
Look at the apples!  
Apples grow on trees.  
Look at the oranges!  
Oranges grow on trees.  
Look at the pears!  
Pears grow on trees!  
This is the ground.  
Some fruit grows on the ground.

Look at the strawberries!  
Strawberries grow on the ground.  
Look at the watermelons!  
Watermelons grow on the ground.  
Some fruit grows near the ground.  
Look at the kiwi fruit!  
Kiwi fruit grows near the ground.  
Some fruit grows in hot places.  
Look at the bananas!  
They grow in hot places.  
Look at the oranges!  
They grow in hot places.  
Some fruit grows in cold places.  
Look at the kiwi fruit!  
They grow in cold places.  
Look at the pears!  
They grow in cold places.  
Look at the apples!  
They grow in cold places.  
It's Quiz Time!  
Apples grow on ...  
That's right!  
Apples grow on trees.  
Strawberries grow on ...  
That's right!  
Strawberries grow on the ground.  
Oranges grow on ...  
That's right!  
Oranges grow on trees.  
What's your favourite fruit? And where does it grow?
