Unit 2 Marie's maths

► Marie's maths

What do we use in our maths class?

This is a maths class. Maths is fun.

In our maths class, we use lots of different things:

a pencil case, pencils, a pencil sharpener, a notebook, a calculator, a compass, an eraser, and a ruler.

We use graphs in our maths class too.

A graph is a way of showing information in a picture.

This is a graph. It's called a bar chart.

This bar chart shows what's in Alba's pencil case.

Look! There are two erasers in Alba's pencil case!

This is a graph too. It's called a pictogram.

This pictogram shows what's in George's pencil case.

Look! There is one ruler in George's pencil case.

It's Quiz Time!

What's this? Is it an eraser or a pencil sharpener?

That's right! It's a pencil sharpener.

What's this? Is it a bar chart or a pictogram?

That's right! It's a bar chart.

Look at the bar chart.

It shows what's in Mia's pencil case.

Is there a calculator in Mia's pencil case?

That's right! There is one calculator in Mia's pencil case.

We use lots of things in our maths class.

What's your favourite?

Unit 4 Marie's art

► Marie's art

What can you do with origami?

There are lots of things you can do with paper.

You can write on it. You can draw on it. You can make a paper plane with it!

Making shapes and figures from paper is called origami.

Origami is from Japan.

Japan is a country in Asia.

Origami is a beautiful art.

Look! You can make lots of different things: a flower, a star, a bird, a heart.

Look at the origami elephant!

Look at the origami fox!

Look at the origami boat!

Doing origami is fun!

It's Quiz Time!

This is an origami figure.

What animal is it?

That's right! It's a dog!

This is an origami shape.

What is it?

That's right! It's a flower!

This is an origami shape.

What is it?

That's right! It's a heart.

Origami is an art. Origami is beautiful.

You can make many things.

What would you like to make?

Unit 6 Marie's science

► Marie's science

Where does food come from?

What's your favourite food?

Is it bread? Chips? Ice cream?

There are many types of food, from vegetables to meat.

But where does food come from?

Some food comes from animals.

From animals, like cows and sheep, we get meat and milk.

We use milk to make yoghurt, and cheese.

We get eggs from animals too.

Look! Food also comes from plants.

From plants we get rice, pasta, fruit, and vegetables.

Some people eat vegetables, but they do not eat meat.

We call them vegetarians.

It's Quiz Time!

Does this food come from a plant or an animal?

That's right! It comes from an animal.

Meat comes from animals.

Does this food come from a plant or an animal?

That's right! It comes from a plant.

Carrots come from plants.

Does this food come from a plant or an animal?

That's right! It comes from an animal.

Eggs come from animals.

The next time you have something to eat,

look at the food you're eating and ask:

Does it come from an animal or a plant?

Unit 8 Marie's geography

► Marie's geography

Where do we live?

This is our world: planet Earth.

People live in different places all around the world.

We live in cities, in towns and in villages.

This is a village. Villages are small places.

There are some shops and there are some houses.

There is a small school. There are one or two cafes, a bakery

CLIL Video Scripts

and a library.

This is a town. Towns are not small, and they are not big.

There are more houses in a town than in a village, more schools and more shops.

There are supermarkets too, and a cinema.

This is a city. Cities are very big!

Look! This is Tokyo, in Japan.

This is Delhi, in India.

And this is São Paulo, in Brazil.

There are lots of streets in a city, lots of houses, shops and cinemas.

There are lots of cars and buses too! And there are people – everywhere!

It's Quiz Time!

What shop is this?

That's right! It's a bakery.

Is this a city or a village?

That's right! It's a city.

Is this a village or a town?

That's right! It's a village.

There are lots of different places to live.

Where do you live?

Unit 10 Marie's sports

► Marie's sports

What sports can we do in summer and winter?

There are lots of great sports to enjoy: table tennis, hockey, basketball.

There are so many things to do. We can swim, we can ride a bike through the forest, we can play football.

Some sports are for the summer and some sports are for the winter.

In the summer, there are lots of sports to do.

We can go sailing. Look at the sailing boat!

We can go surfing. Look at the big wave!

We can go mountain walking. Look at the beautiful mountains!

We can go snorkelling! It's fun to go snorkelling when it's warm.

There are great things to do in the winter too.

We can go skiing. Look!

Skiing is a very popular sport.

Snowboarding is popular in the winter too. Look at the jump!

It's Quiz Time!

What is this family doing?

That's right! They are sailing.

What is this girl doing?

That's right! She's snowboarding.

Is this a summer or a winter sport?

That's right! Surfing is a summer sport.

There are so many sports to do.

Which do you like the most, summer or winter sports?

Unit 12 Marie's geography

► Marie's geography

Where do you want to explore?

There is so much to explore in our world: mountains, caves, the sea.

At sea, you can explore under water.

Look! You need a snorkel, an air tank, a mask and a wetsuit.

These caves are deep under the ground.

To explore them, you need a helmet, some rope, and a torch.

This family is walking in the beautiful mountains.

They need a map, good boots and a tent.

They need food too!

To cook on the fire.

It's Quiz Time!

What are these people exploring?

That's right! They're exploring a cave.

Where are these people?

That's right! They are in the mountains.

You need this to explore the sea.

What is it? That's right!

To explore the sea, you need a snorkel.

There are so many places to explore, so many things to do, so many adventures to have.

Where would you like to go?
