Outcomes

Intermediate – Dictation

Units 9–12

Dictation is a great way to practise language (vocabulary and grammar) and skills (listening and writing) in one activity. It's challenging and really tests your ability to listen and understand the main information.

You are going to hear a short extract from one of the tracks you listened to in Units 9–12. You will hear it only once.

A Work in your groups. Listen and take notes on what you hear. You won't have time to write everything.

B Work together to write the whole text.

C Compare what you have written with the audio script of track 54 on page 207.
