**Read the passage.****Real Photos, Fake News**

- A** Everybody likes happy stories, especially about cute animals. You can find thousands of them online! In 2020, there were several posts about animals in Venice, Italy that became very popular. People shared them on social media again and again. But there was a problem with these posts—they weren't real.
- B** One post showed a photo of swans floating in water. The post said that the beautiful white birds were returning to Venice's canals because there were fewer people in the city during the COVID-19<sup>1</sup> pandemic. This was a nice idea, but it wasn't true. The swans were not "returning" to the city because they never left! Swans regularly swim in Venice's canals.
- C** Another post showed a video of dolphins swimming near a city center. The post said, "Venice hasn't seen clear canal water in a very long time. Dolphins showing up<sup>2</sup> too." But the video was not from Venice. It was from the island of Sardinia, which is over a hundred miles away from Venice. It was true that the water in Venice's canals became clearer during the pandemic, but dolphins never swam through them.
- D** So why did people post false stories like these? The person who made the post about the swans did not know that she was wrong. When she learned that swans always swim in Venice's canals, she did not delete her post. It was the most popular post that she ever made! The people who posted these stories probably didn't want to cause any problems. They just wanted to share something happy with the world.
